Leadership and Collaboration: Team management, mentorship, design reviews and critique, cross functional collaboration with engineers and program managers, documentation, stakeholder presentation

PROFESSIONAL EXPERIENCE

Creative Lead and Product Designer

Savva.ai (Vircode, Inc.), Bangalore, India | May 2025 to Present

- Define and own the visual design language, standards, and guidelines for an AI first health platform across iOS, Android, web, and go to market surfaces, setting creative vision from concept to execution.
- Designed the Savva iOS and Android apps from scratch in Figma, owning end to end product UI across onboarding, core flows, and the full mobile experience.
- Built and maintain a scalable design system of component libraries, color and typography tokens, and documented usage rules that keep product, web, and marketing visually coherent.
- Deliver wireframes, prototypes, style guides, and design specifications, and coordinate with engineering through implementation to ensure feasible, well executed design solutions.
- Lead and mentor a multidisciplinary team of designers and video editors through briefs, design reviews, and structured feedback, building a high performance and inclusive creative culture.
- Integrated AI powered tools and LLM based workflows into ideation, visual exploration, and asset creation, compressing turnaround time while protecting craft, quality, and brand consistency.
- Partner with founders, product, and marketing to translate business and user needs into visual narratives, and present concepts and rationale to stakeholders for iteration.

Senior Multimedia Designer and Visual Designer

SellerApp, Bangalore, India | May 2019 to April 2025

- Delivered visual design across product marketing, websites, landing pages, performance marketing, CRM, social, and long form reports for a global ecommerce intelligence SaaS platform.
- Produced 1000+ videos, reels, and shorts, contributing to a 57% increase in social engagement, 5x YouTube subscriber growth, and a 10x increase in blog and website engagement.
- Designed Amazon A+ Content, Storefronts, and listing creatives that improved product visibility and conversion.
- Created brand films, motion graphics, infographics, and presentation systems for Google I/O, ONDC, and Quick Commerce initiatives, presenting concepts to leadership and iterating on feedback.
- Established reusable templates, layout grids, and shared asset libraries that standardized visual output across teams, and mentored junior designers across concurrent high volume projects.

Freelance Motion Designer and Video Creator

Bangalore, India | June 2017 to September 2021

- Delivered branding films, motion graphics, promotional videos, and digital assets for MyGov, Halma, Amazon Ads, Bank of America, ACN Infotech, and Golden Touch.
- Managed projects end to end from concept and scripting through design, production, and delivery.
